“I will be pursuing my BA (Hons) Degree in Economics and Marketing because it has always been an interesting subject to me and I would like to take

the challenge,” said the student.

She added that LCB has certainly provided her a solid foundation towards her future and the College has made her realise many things she can do beyond her expectations.

Another student who took the same degree pathway with LCB, Sarmad Khan, 22, remarked that he would like to follow his father’s footsteps in managing an institutional business (in Pakistan, his homeland) where he can help educate future successors after accomplishing his Final Year Degree in Northumbria University.
